

I am very disturbed to hear that K-LOVE could be displaced by an LPFM broadcaster providing other programming in my local community. K-LOVE provides an invaluable resource for commercial free Christian programming that I cannot receive anywhere else on the radio. Should an LPFM be allowed to displace K-LOVE, the community would be deprived of this much-needed resource of faith and inspiration. Given the high percentage of Christians in this community, I believe it fair to say that a majority of our citizens would consider K-LOVE a provider of services essential to the public interest. K-LOVE advocates strong morals and faith-based values that are irreplaceable by any other broadcaster. K-LOVE spreads the gospel of Christ throughout the community, offering hope and love to an otherwise desperate world. If this does not merit K-LOVE being classified as a "service provided in the public interest", I'm not sure any broadcaster can justify such a claim. I implore you not to allow an LPFM broadcaster to displace K-LOVE from this community and leave us without a tremendous source of positive and encouraging programming.
